

# Tiger Cubs

## **The Tiger Cub Scout Program**

**Tiger Cubs gives parents an opportunity to provide their children with a safe, structured, and nurturing environment. Tiger Cubs and their adult partners have fun while developing closer family relationships. Scouting can provide positive, enriching experiences and activities to complement a child's formal education. Scouting and education share the common goal of helping young people grow into self-related, dependable, and caring adults.**

**Tiger Cubs is a simple, fun, easy-to-operate program that helps a boy and his adult partner gain a better understanding of and an appreciation for the community environment in which they live, and even the world at large.**

**Tiger Cubs offers an opportunity for boys to enter the Scouting family at an important age. Research has shown that early involvement in value-based programs is vital to strong character development. The longer a boy stays in Scouting, the more likely he is to develop the values and skills needed to become an ethical and productive citizen.**

**Tiger Cubs are a part of a pack of dens. Tiger Cubs meet a minimum of twice a month for a "Go See It" activity and attend all pack meetings. There are resource books and program helps available for the den leaders along with a Tiger Cub Handbook for each Tiger scout. Tiger Cubs introduces boys and their adult partners to the excitement of cub scouting as they "Search, Discover, and Share" together.**

**The Tiger Cub program is designed for first grade boys and ideas are geared to their level. They are also arranged to help the boys and the adult partners interact in a positive way.**
